## The Australian Government Rebate on private health insurance

The Private Health Insurance Rebate offers a saving on the cost of private health cover funded by the Federal Government. The level of Rebate you could be entitled to receive is based on the age of the oldest person on the policy and your taxable income (or combined family income for couples and families).

The table below will help you determine which rebate level you could be entitled to. The Rebate percentages are set annually by the Australian Government.

If you have a Lifetime Health Cover loading, the Rebate is not claimable on the LHC loading component of your premium

	Base Tier	Tier 1	Tier 2	Tier 3
<b>Singles</b>	\$90,000 or less	\$90,001 – \$105,000	\$105,001 – \$140,000	\$140,001+
<b>Families</b>	\$180,000 or less	\$180,001 – \$210,000	\$210,001 – \$280,000	\$280,001+

### Private Health Insurance Rebate – from 1 April 2021

<b>Under 65</b>	24.608%	16.405%	8.202%	0.00%
<b>65-69</b>	28.710%	20.507%	12.303%	0.00%
<b>70+</b>	32.812%	24.608%	16.405%	0.00%

Source: Australian Tax Office. These thresholds apply for the 2022/2023 financial year. For families, and single parent families, the thresholds increase by \$1,500 for each dependant child after the first. All members on the policy must be eligible to claim the Rebate. There are specific rules for calculating income for Australian Government Rebate purposes. For more information go to [ato.gov.au](https://ato.gov.au)
